

Linear Equations Fluency Check

Name _____:Version A

Write the answers to the following questions in slope intercept form. Show your work. Box your answers.

1. Containing points (3,6), (7,-2)

2. Slope = $-\frac{3}{4}$, y-intercept = 8

3. Slope = 2 through point (-3,10)

4. Parallel to $y=6$, through (2, -3)

5. Perpendicular to $2x+3y=7$, through (-4, 6)
